CENTRAL PARK GETS MORE PLAY AREAS

Digging Plots Set Aside for
Children—15 Baseball Fields
to Be Ready Soon.

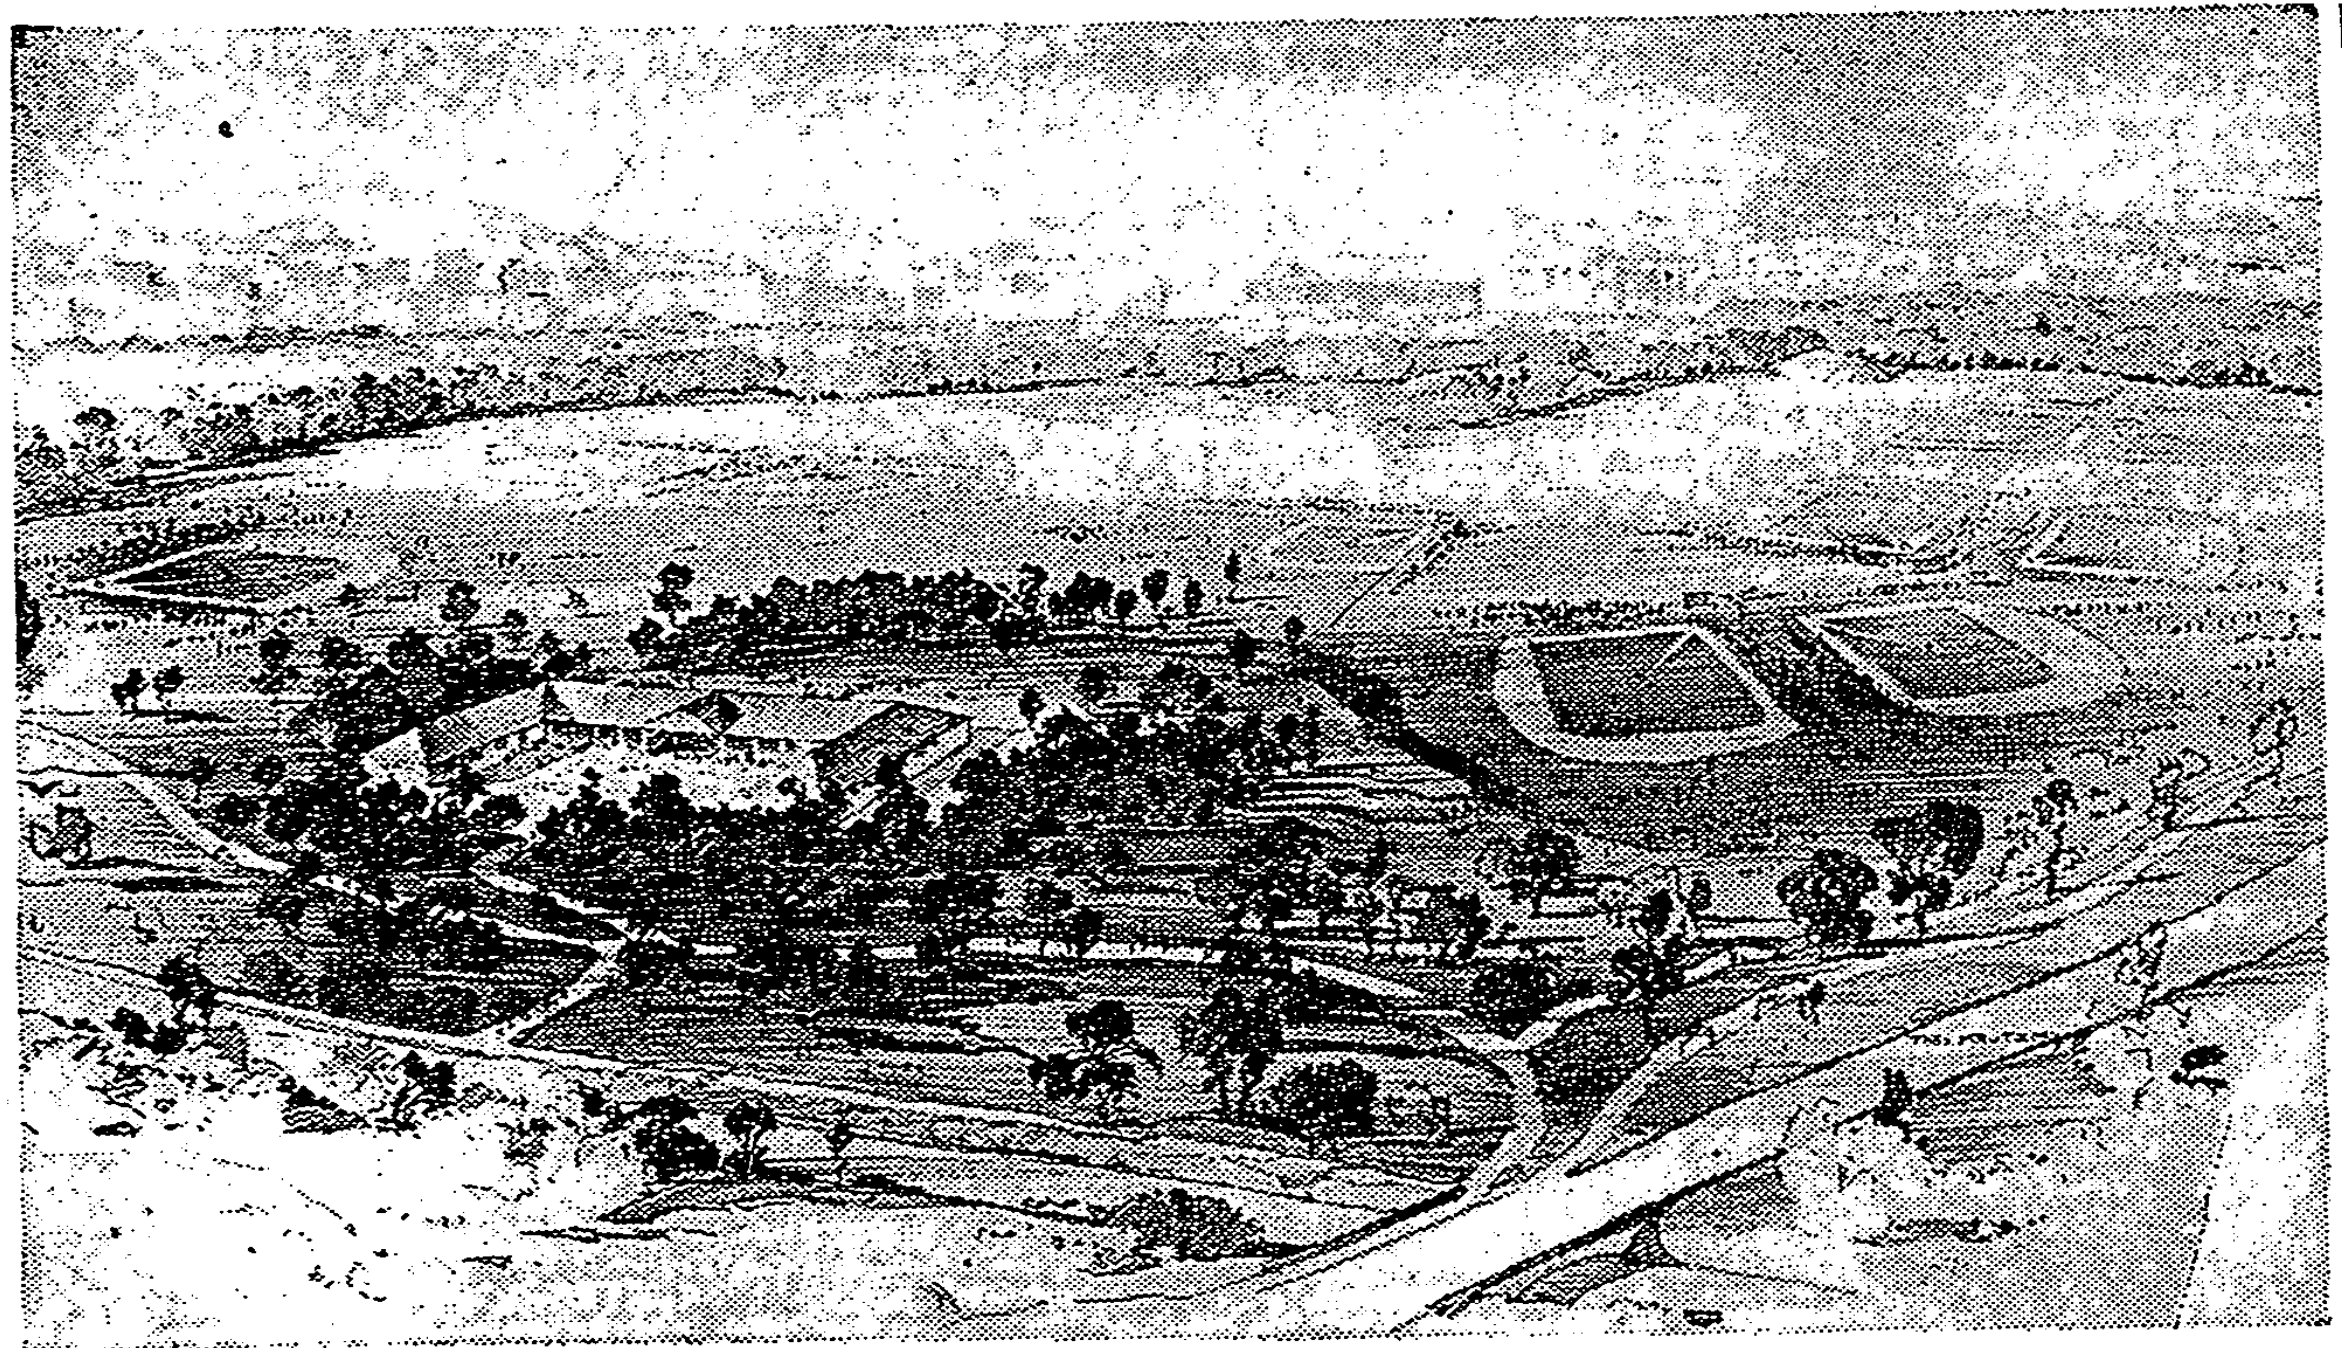

BOWING TO CRITICS DENIED

Moses Says Plans Were Made
Some Time Ago—Complaints
From 'Defenders' Expected.

An increase in active play facilities in Central Park was announced yesterday by the Park Department, following recent criticism of the department for failure to make adequate provision in the park for children. Park Commissioner Moses denied, however, that any connection existed between the announcement and the criticism.

"There is absolutely no relationship," he declared. "We are merely making public now detailed plans for improvements we had mentioned some time ago."
