SUMMARY OF EXPERIENCE

William Ross, Architectural Historian has extensive experience in historic preservation and architectural history since 2013.

At EBI Consulting, Mr. Ross's responsibilities include the completion of Section 106 reports, National Environmental Policy Act (NEPA) evaluations including analysis of historic properties and areas of environmental concern, and determining eligibility for properties' inclusion in the National Register of Historic Places.

Prior to his work at EBI, Mr. Ross was a student in Columbia University's Historic preservation program, where he was a teaching assistant for two classes, Preservation Law and Colloquium. He also served as an intern at Landmark West, advocating for the preservation of the historic architecture of Manhattan's Upper West Side.

Relevant Project Experience

Master's Thesis: *Preserving Jamestown, Rhode Island*

For his master's thesis, Mr. Ross developed preservation planning recommendations for the town of Jamestown, Rhode Island. Relevant experience included interviewing state and local officials, preservation professionals, and residents; mapping historic features and building ages in ArcGIS; and analyzing similar towns' preservation ordinances.

Bushwick United Methodist Church National Register Nomination, Brooklyn NY

Mr. Ross researched and wrote the nomination for this building, which was added to the New York State Register in 2016 and the National Register of Historic Places in 2017.

Flushing Meadows-Corona Park Preservation Studio

As part of a team at Columbia University, Mr. Ross surveyed the park and developed a conditions report survey and other deliverables for the client, the New York City Parks Department.

Spafford Mausoleum, Woodlawn Cemetery, Bronx NY

Mr. Ross produced a comprehensive report of this mausoleum, including archival research, architectural analysis, and the production of architectural drawings in AutoCad.

Matthew Holtkamp, architectural historian, has extensive experience in cultural resource management since 2008. As a professional architectural historian, he meets the Secretary of the Interior's Professional Qualification Standards in the areas of architectural history and historic preservation as specified by 36CFR61. Since graduating from the University of Vermont with a Master of Science in historic preservation, he has worked on a variety of diverse historic preservation projects, including Section 106 compliance, original research for use in local and national landmarks nominations, project management and architectural surveys.

At EBI Consulting, he serves as an architectural historian within the Midwest Telecom Environmental group. His responsibilities include conducting FCC National Environmental Policy Act (NEPA) and Section 106 compliance reviews with a focus on conducting cultural resource surveys and assessing National Register eligibility of historic structures and sites.

Relevant project experience:

Kansas State Historic Preservation Office, Topeka, KS

At the Kansas State Historic Preservation Office (SHPO), Matthew reviewed state and federal tax credit projects. He collaborated with property owners, architects and government agencies to meet the Secretary of the Interior's Standards. He also surveyed historic resources and prepared National Register nominations.

Preservation Alliance of Greater Philadelphia, Philadelphia, PA

As a research fellow, he conducted comprehensive research, assembled photo documentation and wrote nominations for the local historic register.

Summary of Experience

Alexander (Alex) O’Gorman, M.A., Historian, has five years’ experience in historic preservation. He meets the Secretary of the Interior’s Professional Qualifications Standards as specified in 36 CFR Part 61 for History. Throughout his five years’ experience, Mr. O’Gorman upheld various positions such as a research specialist at three of Preservation Virginia’s historic sites – Patrick Henry’s Scotchtown, The John Marshall House, and Bacon’s Castle; Assistant to the Director of Property Management at the Fairmount Park Conservancy; and as a Historian I with AECOM, Cultural Resources and Historic Preservation. In 2017, Mr. O’Gorman received a Bachelor of Arts in History from Randolph-Macon College, Ashland, VA; and in 2021, he received a Master of Arts in History, concentrating in Public History, from Temple University, Philadelphia, PA. At Temple University, Mr. O’Gorman studied eighteenth and nineteenth century American history, focusing on encounters between Native American and European groups in North America, and the development of the built environment in eighteenth and nineteenth century America. In addition to experience, Mr. O’Gorman holds skills in technical report writing, primary and secondary source research and interpretation, field documentation, architectural assessments, and report production.

At EBI Consulting, Mr. O’Gorman completes all aspects of FCC National Environmental Policy Act (NEPA) compliance reviews and specializes in Section 106 compliance and other cultural resource reviews.

With Preservation Virginia, Mr. O’Gorman completed three research projects for three of Preservation Virginia’s preserved heritage sites. At Bacon’s Castle, he researched the proprietors of Bacon’s Castle, Arthur Allen Senior and Arthur Allen II, and created an unpublished site research report. At The John Marshall House, he led research on free Black societies in Richmond, 1780-1835, and created an unpublished site research report and directory of sources. And, at Patrick Henry’s Scotchtown, he designed and developed a tour which included the histories of Patrick Henry and Nez Perce’s, Chief Joseph.

Summary of Experience

Ms. Blankenship obtained a Bachelor of Arts from the University of Indianapolis in 2017 with majors in Archaeology and Anthropology and a minor in Geology. Ms. Blankenship was accepted to the Master's of Archaeology 4:1 Program and finishing Master's degree courses in 2018. After this, she obtained an Archaeologist position with TRC Environmental in Nashville, Tennessee. Ms. Blankenship brings 3 years of consulting experience to her current role as a Tribal Coordinator and EBI Consulting. In this position she prepares, submits, and tracks projects through the Federal Communications Commissions (FCC) Tower Construction Notification system and consults with tribes to ensure the preservation of cultural and historical resources.

SUMMARY OF EXPERIENCE

Ms. Harding completed her formal education in archaeology and meets and/or exceeds the qualifications for an archaeologist as outlined in the Secretary of the Interiors Professional Guidelines. She is a Register of Professional Archaeologists (RPA) member experienced in Section-106 Compliance as it pertains to archaeological Phase I, II, and III excavations. She has been employed in the field of cultural resource management since 2009 and has experience working on both prehistoric and historic sites across the United States. Her focus is Prehistoric archaeology of the Northeast and the application of geographic information systems in the field of archaeology.

Ms. Harding's responsibilities at EBI include helping clients navigate the environmental review process to ensure compliance with Federal Communications Commission (FCC) requirements under the National Environmental Policy Act (NEPA). In her role as a Project Archaeologist for EBI Consulting, Ms. Harding is responsible for completing archaeological evaluations and mitigations for telecoms projects in the Mid-Atlantic and Northeastern United States to the standards of relevant State Historic Preservation Offices in the region in accordance with FCC guidelines. Ms. Harding has completed projects in the following states: West Virginia, Maryland, New York, New Jersey, Pennsylvania, Ohio, Massachusetts, Virginia, Alabama, Louisiana, Kentucky, Tennessee, Washington, and California.

Relevant Project Experience

January 2017-Present, EBI Consulting

Archaeologist—Principal Investigator. Please see above for details.

October 2015-December 2016, TRC Environmental

Project Archaeologist. In her role as Project Archaeologist, Ms. Harding was responsible for directing and leading Phase I, II, and III cultural resource management surveys and excavations throughout the Northeast, Mid-Atlantic, and Midwest Regions. Additional responsibilities included proposal and technical report writing, permit writing, conducting background research, and THPO and SHPO consultation.

January 2014-October 2015, TRC Environmental

Archaeological Field Director. In her role as Archaeological Field Director, Ms. Harding was responsible for directing and leading Phase I cultural resource management surveys and excavations throughout the Northeast, Mid-Atlantic, and Midwest Regions. Additional responsibilities included technical report writing, permit writing, and conducting background research.

June 2013 – August 2013, Indiana University of Pennsylvania

Advanced Field School Supervisor. As a graduate student of Applied Archaeology, Ms. Harding was responsible for conducting independent research at the Johnston archaeological site and supervising undergraduate field excavations.

July 2011-January 2014, TRC Environmental

Archaeological Field and GIS Technician. In her role as Archaeological Field and GIS Technician, Ms. Harding was responsible for conducting Phase I and II cultural resource management surveys and excavations throughout the Northeast, Mid- Atlantic, and Midwest Regions. Additional responsibilities included GIS survey for archaeology and other environmental disciplines.

January 2010-November 2010, LSA Associates

Cultural Resource Analyst and Laboratory Technician. In her role as Cultural Resource Analyst and Laboratory Technician, Ms. Harding was responsible for excavation, artifact and soil analysis, artifact photography and curation, and reporting writing.

November 2009-December 2009, Brian F. Smith Associates

Archaeological Laboratory Technician. In her role as Archaeological Laboratory Technician, Ms. Harding was responsible excavation and artifact analysis at the superfund Hanford Construction Site in Washington State. Archaeological monitoring on an active construction site, OSHA HAZWOPER training, historic and prehistoric artifact analysis, laboratory processing, and curation.

July 2008 – August 2008, Morris Museum, Morristown

Curation Intern. As a Curation Intern, Ms. Harding assisted conducting curation, cataloging, and public outreach presentations.

July 2006 – August 2006, Lenape Meadow

Volunteer. Ms. Harding volunteered on a Paleo-Indian archaeological excavations.

Attachment 2. Site Information - Photographs

You are required to provide photographs and maps as part of this filing. Additional site information can be provided in an optional attachment.

Photograph Requirements:

Except in cases where no Historic Properties were identified within the Areas of Potential Effects, submit photographs as described below. Photographs should be in color, marked so as to identify the project, keyed to the relevant map or text, and dated; the focal length of the lens and the height of the camera should be noted. The source of any photograph included but not taken by the Applicant or its consultant (including copies of historic images) should be identified on the photograph.

- a. Photographs taken from the tower site should show views from the proposed location in all directions. The direction (e.g., north, south, etc.) should be indicated on each photograph, and, as a group, the photographs should present a complete (360 degree) view of the area around the communications tower or non-tower structure.
- b. Photographs of all listed and eligible properties within the Areas of Potential Effects.
- c. If any listed or eligible properties are visible from the proposed tower site, photographs looking at the site from each historic property. The approximate distance in feet (meters) between the site and the historic property should be included. If any listed or eligible properties are within the APE, photos looking at each historic property should be included.

Include aerial photos of the APE for visual effects, if available. There are a variety of publicly available websites that provide aerial photographs.

Please see the attached Photographs, taken by William Ross, Architectural Historian (SOI-qualified) of EBI Consulting on November 1, 2023, unless otherwise noted. A photograph location map is included within this attachment.

Attachment 4. Site Information – Additional Site Information

Additional Site Information Recommendations:

Describe any additional structures, access roads, utility lines, fences, easements, or other construction planned for the site in conjunction with the proposed wireless telecommunication facility. Use this attachment to provide additional details needed to present a full and accurate description of any construction activities that will take place to complete the installation.

The Project Site, located at 715 Columbus Avenue, New York, New York County, NY, is situated within a mixed-use commercial and residential urban neighborhood. Development within the Visual APE largely consists of mid-twentieth-century residential high-rises lining Columbus Avenue, with neighborhoods of late-nineteenth-century rowhouses and tenements on the side streets to the east and west. Commercial tenants occupy many ground-floor spaces along Columbus Avenue. Streets are arranged in a grid, topography is gently hilly, and mature trees are located at intervals along the streets.

The Project Site consists of an approximately 5-foot by 5-foot area of concrete on concrete sidewalk on the east side of Columbus Avenue, within the public right-of-way. A sidewalk kiosk with electronic screens currently exists at the Project Site.

Boldyn Networks Infrastructure US LLC proposes to install a 32-foot, 3 3/8-inch tall (overall height) telecommunications pole with top mounted antennas and support equipment at the Project Site. Power will be routed northeast approximately 32 feet to an existing power source. Fiber will be routed approximately 175 feet west and then southwest to an existing telco manhole located within the same right-of-way. Trenching is not expected to exceed 3 feet in width and 4 feet in depth. Note that the total area of ground to be disturbed is approximately 646 square feet.

Site Plans/Lease Exhibits provided by Boldyn Networks Infrastructure US LLC are included in Attachment 7.

Attachment 5. Area of Potential Effects

You are required to provide two attachments regarding the Determination of Effect: Areas of Potential Effect and Mitigation of Effect (if applicable).

Areas of Potential Effect Guidelines:

a. Describe the APE for direct effects and explain how this APE was determined.

The APE for direct effects is limited to the area of potential ground disturbance and any property, or any portion thereof, that will be physically altered or destroyed by the Undertaking. On November 24, 2008, the FCC further clarified that the APE-Direct Effects is limited to the proposed lease area including the access route and utility corridor. EBI Consulting completed an evaluation of the site, lease exhibits, and surrounding environment and determined that the APE for direct effects is limited to the 32-foot power route, the 175-foot fiber route, and the proposed 5-foot by 5-foot pole installation area.

b. Describe the APE for visual effects and explain how this APE was determined.

The APE for visual effects is the geographic area in which the Undertaking has the potential to introduce visual elements that diminish or alter the setting, including the landscape, where the setting is a character-defining feature of a historic property that makes it eligible for listing on the National Register.

According to the guidance in Section VI.C of the FCC's 2004 NPA, the presumed APE for visual effects for construction of new facilities under 200 feet in total overall height is the area from which the tower will be visible within a half mile from the tower site. However, per Section VI.C.5 of the FCC's 2004 NPA, "in the event that the Applicant determines, or the SHPO/THPO recommends, that an alternative APE for visual effects is necessary, the Applicant and the SHPO/THPO may mutually agree to an alternative APE." In consultation with the FCC, it has been determined that a 500-foot radius around the project site is an appropriate APE-VE for the vast majority of the CityBridge Link5G sites. Factors such as the height of the undertaking, the density of the development within the project area, and the presence of existing structures and vegetation in the public right of way were considered per the FCC's guidance in the NPA. The area surrounding the project site shares the characteristics cited by the FCC so it has been determined that 500-foot is an appropriate radius for assessing the effects of the project on historic properties, if any exist.

Mitigation of Effect Guidelines:

In the case where an Adverse Visual Effect or Adverse Direct Effect has been determined you must provide the following:

a. Copies of any correspondence and summaries of any oral communications with the SHPO/THPO and any consulting parties.

As of the date of this report, there has been no correspondence with the SHPO/THPO.

b. Describe any alternatives that have been considered that might avoid, minimize, or mitigate any adverse effects. Explain the Applicant's conclusion regarding the feasibility of each alternative.

No adverse effects are expected as a result of the proposed facility; therefore, alternatives that might avoid, minimize, or mitigate any adverse effects need not be considered.

For each property identified as a Historic Property in the online e-106 form:

Applicant's Name: Boldyn Networks Infrastructure US LLC
Project Name: MN-07-134709 A
Project Number: _____

NT SUBMISSION PACKET -- FCC FORM 620

Approved by OMB
3060-1039
See instructions for
public burden estimates

Indicate whether the Applicant believes the proposed undertaking would have a) no effect; b) no adverse effect; or, c) an adverse effect. Explain how each such assessment was made. Provide supporting documentation where necessary.

Per Section §800.5(a)(1) of the National Historic Preservation Act “[a]n adverse effect is found when an undertaking may alter, directly or indirectly, any of the characteristics of a historic property that qualify the property for inclusion on the National Register in a manner that would diminish the integrity of the property’s location, design, setting, materials, workmanship, feeling, or association.” Examples of Adverse Effects include physical destruction of or damage to all or part of the property; alteration of the property that is not consistent with the Secretary’s standards for the treatment of historic properties; removal of the property from its location; change in the character of the property’s use or physical features within the property’s setting that contribute to its historic significance; introduction of visual, audible or atmospheric elements that diminish the property’s significant historic features; neglect that causes deterioration of the property’s character defining features; transfer, lease or sale of the property out of federal ownership or control without adequate protections to preserve the property’s historic features. §800.5(a)(2).

The effect of new construction on a resource is evaluated using the Criteria of Adverse Effect relating to “physical destruction of or damage to all or part of the property,” “change of the character of the property’s use or of physical features within the property’s setting that contribute to its historical significance,” and “introduction of visual, atmospheric or audible elements that diminish the integrity of the property’s significant historic features.” If none of these criteria are met, it is possible that new construction that conforms to the applicable Secretary’s Standards could be treated as a no adverse effect situation.

Lastly, per Section VI.E.3 of the FCC’s 2004 Nationwide Programmatic Agreement, a visual adverse effect will occur when the tower will “noticeably diminish the integrity of one or more of the characteristics qualifying the property for inclusion in or eligibility for listing on the National Register.” Merely being able to see the facility is not enough. The change in the visual setting must be noticeably affected.

Please see the table below for an evaluation of the proposed project’s effects on identified historic properties.

NRHP/ Inventory Number	Historic Property Name	Effect Determination	Explanation of Effect Determination	EBI Photo No.
LPI647	Upper West Side / Central Park West Historic District	No Effect	Within APE-VE, approx. 300 feet southeast of Project Site Due to intervening development, the Project Site is not visible from this resource. Therefore the proposed installation will have No Effect.	9, 10, 14
I7NR00034	Congregation Ohab Zedek	No Effect	Within APE-VE, approx. 300 feet northwest of Project Site Due to intervening development, the Project Site is not visible from this resource. Therefore the proposed installation will have No Effect.	11-12

Attachment 6. Tribal and NHO Involvement

At an early stage in the planning process, the Nationwide Agreement requires the Applicant to gather information from appropriate Indian Tribes or Native Hawaiian Organizations (“NHOs”) to assist in the identification of Historic Properties of religious and cultural significance to them. Describe measures taken to identify Indian tribes and NHOs that may attach religious and cultural significance to Historic Properties that may be affected by the undertaking within the Areas of Potential Effects (“APE”) for direct and visual effects. If such Indian tribes or NHOs were identified, list them and provide a summary of contacts by either the FCC, the Applicant, or the Applicant’s representative. Provide copies of relevant documents, including correspondence. If no such Indian tribes or NHOs were identified, please explain.

EBI Consulting filed the proposed undertaking on the FCC’s Tower Construction Notification System (TCNS). The attached FCC Notification email lists the Tribes identified through the TCNS process. Follow-up correspondence, when necessary, will be completed via the methods listed on the attached email considered acceptable to each Tribe.

Subject: NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION - Email ID #8707403

Dear Applicant:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this electronic mail message is to inform you that the following authorized persons were sent the notification that you provided through TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail (letter). We note that the review period for all parties begins upon receipt of the Submission Packet pursuant to Section VII.A of the NPA and notifications that do not provide this serve as information only.

Persons who have received the notification that you provided include leaders or their designees of federally-recognized American Indian Tribes, including Alaska Native Villages (collectively "Tribal Nations"), Native Hawaiian Organizations (NHOs), and State Historic Preservation Officers (SHPOs). For your convenience in identifying the referenced Tribal Nations and NHOs and in making further contacts, the City and State of the Seat of Government for each Tribal Nation and NHO, as well as the designated contact person, is included in the listing below. We note that Tribal Nations may have Section 106 cultural interests in ancestral homelands or other locations that are far removed from their current Seat of Government. Pursuant to the Commission's rules as set forth in the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA), all Tribal Nations and NHOs listed below must be afforded a reasonable opportunity to respond to this notification, consistent with the procedures set forth below, unless the proposed construction falls within an exclusion designated by the Tribal Nation or NHO. (NPA, Section IV.F.4).

The notification that you provided was forwarded to the following Tribal Nations and NHOs. A Tribal Nation or NHO may not respond until a full Submission Packet is provided. If, upon receipt, the Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Second Report and Order released on March 30, 2018 (FCC 18-30).

1. TCNS Coordinator Tiffany Martinez - Delaware Nation - 31064 State Highway 281 (PO Box: 825) Anadarko, OK - tmartinez@delawarenation-nsn.gov - 405-247-2448 (ext: 1403) - electronic mail

Exclusions: The Delaware Nation of Oklahoma Historic Preservation Office has developed the following consultation procedures for all TCNS projects identified as undertakings by the Federal Communications Commission. In the email subject line, please specify whether the project is for a tower, small cell, or collocation. Our response can be given faster with this information.

2. Cayuga Nation Representative Clint C Halftown - Cayuga Nation - (PO Box: 803) Seneca Falls, NY - clintha@roadrunner.com; tina.orbaker@gmail.com - 315-568-0750 - regular mail

If the applicant/tower builder receives no response from the Cayuga Nation within 30 days after notification through TCNS, the Cayuga Nation has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Cayuga Nation in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

Exclusions: The Stockbridge-Munsee Community reviews all cell tower construction projects that result in ground-disturbance in its areas of interest. Our areas of interest are Wisconsin, New York, Vermont, Massachusetts, the

northwest corner of Connecticut, Pennsylvania, New Jersey and Kansas.

However, effective August 1, 2018, the Stockbridge-Munsee Community will only provide a reply to projects where, after completing its assessment, it has determined that it has concerns about the project. We are not interested in reviewing projects that do not result in ground disturbance, and will not respond to such projects.

If you are sending a ground disturbing project please include colored pictures of the site area along with colored maps and any known ground disturbance that preceded your current project.

If the applicant/tower builder receives no response from the Stockbridge-Munsee Band of Mohican Indians within 30 days after notification through TCNS, the Stockbridge-Munsee Band of Mohican Indians has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Stockbridge-Munsee Band of Mohican Indians in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

Exclusions: The Delaware Tribe of Indians areas of interest include our aboriginal territories (circa 1600), known locations of historic Delaware settlements, routes of removal and forced migration, and all lands of Delaware aboriginal title ceded by treaty to the United States. If you are receiving this notification, then your project falls within these areas of interest and we ask that you provide us with a cover letter describing the project and its location (including the project coordinates) as well as a topographic map showing the project location. If an archaeological survey has already been performed in preparation for the project, please send a copy of that as well. Additionally, we may request a biological assessment of culturally significant treaty resources which may be affected by the proposed undertaking.

We are only interested in consulting on projects that involve ground disturbance that is planned to take place in both undisturbed and previously disturbed contexts. We are not interested in consulting on collocations or projects that involve no ground disturbance. If your project does involve ground disturbance or you do not receive a response from us within 30 days of submitting the above project information, then we have no comments on the project. However, if any archaeological resources or human remains are disturbed at any point in the project planning or construction, we ask that the project be halted until we can be notified of the inadvertent discovery and can determine the most appropriate course of action. If your company would like a formal written response from the Delaware Tribe concerning the potential impact of your project to culturally and religiously significant sites, please contact Susan Bachor at sbachor@delawaretribe.org to request such a response.

In order to better facilitate consultation throughout our areas of interest we have three regional tribal historic preservation offices. While our Tribal Headquarters remains in Oklahoma, our Eastern Office in Pennsylvania is the point of contact for all consultation within our Eastern Region which includes the states of Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland and Virginia. If your project exists in any of these states, please contact Susan Bachor with the above project information at the following e-mail address. All offices prefer digital

submissions and the project information can be submitted by e-mail.

We, at the Delaware Tribe Historic Preservation Office, along with our Chief and Tribal Council remain committed to protecting the cultural and physical integrity of our historic sites, traditional cultural properties, sacred sites, objects of cultural patrimony, and most importantly, the remains of our Ancestors. We look forward to working with you on our shared interests in preserving and protecting Delaware heritage within our areas of interest.

The notification that you provided was also forwarded to the following SHPOs in the State in which you propose to construct and neighboring States. The information was provided to these SHPOs as a courtesy for their information and planning. You need make no effort at this time to follow up with any SHPO that does not respond to this notification. Prior to construction, you must provide the SHPO of the State in which you propose to construct (or the Tribal Historic Preservation Officer, if the project will be located on certain Tribal lands), with a Submission Packet pursuant to Section VII.A of the NPA unless the project is excluded from SHPO review under Section III D or E of the NPA.

TCNS automatically forwards all notifications to all Tribal Nations and SHPOs that have an expressed interest in the geographic area of a proposal. However, if a proposal for PTC wayside poles falls within a designated exclusion, you need not expect any response and need not pursue any additional process with that Tribal Nation or SHPO. In addition, a particular Tribal Nation or SHPO may also set forth policies or procedures within its details box that exclude from review certain facilities (for example, a statement that it does not review collocations with no ground disturbance; or that indicates that no response within 30 days indicates no interest in participating in pre-construction review).

Please be advised that the FCC cannot guarantee that the contact(s) listed above have opened and reviewed an electronic or regular mail notification. If you learn that any of the above contact information is no longer valid, please contact the FCC by emailing tcnshelp@fcc.gov. Historic Properties Identified for Visual Effects Guidelines

- a. Provide the name and address (including U.S. Postal Service ZIP Code) of each property in the APE for visual effects that is listed in the National Register, has been formally determined eligible for listing by the Keeper of the National Register, or is identified as considered eligible for listing in the records of the SHPO/THPO, pursuant to Section VI.D.1.a. of the Nationwide Agreement.**

On October 26, 2023, EBI Consulting completed a review of the available records as required per Section VI.D.1 of the Federal Communications Commission’s 2004 Nationwide Programmatic Agreement to identify historic properties in the APE for Visual Effects. Please refer to the above list in the FCC Form.

- b. Provide the name and address (including U.S. Postal Service ZIP Code) of each Historic Property in the APE for visual effects, not listed in part “a”, identified through the comments of Indian Tribes, NHOs, local governments, or members of the public. Identify each individual or group whose comments led to the inclusion of a Historic Property in this attachment. For each such property, describe how it satisfies the criteria of eligibility (36 C.F.R. Part 63).**

As of the date of this report, EBI has not received comments from Indian Tribes, NHOs, local governments, or members of the public that identify Historic Properties in the APE for visual effects that are not listed in the above list of Historic Properties.

- c. For any properties listed in the above Historic Properties list, that the Applicant considers no longer eligible for inclusion in the National Register, explain the basis for this recommendation.**

Dear Gina Santucci:

Pursuant to Section 106 of the National Historic Preservation Act, the regulations promulgated thereunder and interagency agreements developed thereto, EBI Consulting, Inc., on behalf of Boldyn Networks Infrastructure US LLC, provides this notice of a proposed telecommunications facility installation at the address listed above.

EBI would like to inquire if you would be interested in commenting on this proposed project. Please refer to the attached plans for additional details.

EBI is requesting your review of the attached information as part of the Section 106 process only and not as part of the local zoning process. We are only seeking comments related to the proposed project's potential effect to historic properties.

Your comments regarding the proposed project's potential effect on historic properties should be submitted to EBI Consulting, to my attention at 21 B Street, Burlington, MA 01803 or contact me via telephone at the number listed below. Please reference the EBI project number. We would appreciate your comments as soon as possible within the next 30 days. Please do not hesitate to contact me if you have any questions or concerns about the proposed project.

Respectfully Submitted,

To Whom It May Concern:

Your organization has requested consulting party status in the Section 106 consultation process for Link NYC 5G towers in your area of interest. On behalf of Boldyn Networks Infrastructure US LLC; we are providing initial information on a proposed facility at the above-referenced location to allow you additional time to review the proposed site if you wish. Per the Federal Communications Commission's guidance in Section V.G of their 2004 Nationwide Programmatic Agreement, as a consulting party, you are entitled to:

- (1) receive notices, copies of submission packets, correspondence and other documents provided to the SHPO/THPO in a Section 106 review; and
- (2) be provided an opportunity to have [your] views expressed and taken into account by the Applicant, the SHPO/THPO and, where appropriate, by the Commission.

EBI would like to inquire if you would be interested in commenting on this proposed project and any adverse effects you believe it will have on historic properties. Please refer to the attached maps, project plans and list of historic properties and local landmarks we have already identified during the State Historic Preservation Office records search. **Please note that this is an initial courtesy notification, the 30-day review period for Consulting Party comments does NOT commence with this correspondence. You will receive the full submission packet as prescribed by the FCC in the coming weeks.** We simply share this initial notification so that if you know of any immediate concerns, we may review those concerns and begin attempts to address them.

If you have any comments regarding the above-referenced project's potential effect on historic properties please submit those comments to EBI Consulting, to my attention via email at CityBridgeLink5g@ebiconsulting.com or via

US mail at 21 B Street, Burlington, MA 01803. Please reference the EBI project number in the subject line above.
Please do not hesitate to contact me if you have any questions or concerns about the proposed project.

PLEASE TAKE NOTICE: By virtue of a default under a Security Agreement dated August 18, 2004, executed by ASHA RUBIN ("Debtor"), as assigned to CITIMORTGAGE, INC. ("Secured Party"), said Secured Party, by Auctioneer(s): John William O'Keefe, Terence Gee or Stephan G. Marcellin, will conduct a public sale of the security consisting of 250 shares of stock of 409 Edgecombe Avenue Housing Development Fund Corporation ("Corporation"), and all right, title, and interest in and to a Proprietary Lease between said Corporation and Debtor for the apartment known as **409 Edgecombe Avenue, Apt 4D, New York, NY 10032**, together with all fixtures and articles of personal property now or hereafter affixed to or used in connection with said apartment on **December 6, 2023 at 12:45 PM**, at the Portico of the New York County Courthouse, 60 Centre St, New York, NY 10007, in satisfaction of an indebtedness in the unpaid principal amount of \$70,487.04, plus interest, late fees, attorney fees, maintenance in arrears, and all other advanced charges.

The apartment is sold "AS IS" AND POSSESSION TO BE OBTAINED BY THE PURCHASER.

Said sale is subject to residency requirements of the Corporation, payment of all sums due, if any, to 409 Edgecombe Avenue Housing Development Fund Corporation and the consent, if necessary, of said Corporation; any existing tenancy; payment of all expenses and fees of the secured party with respect thereto; terms of sale and auctioneer's fees; flip-tax; State, City, and County transfer tax. The Secured Party reserves the right to bid.

Terms: an official bank or certified check made payable to **Stern & Eisenberg, P.C.**, as attorneys for the Secured Party for ten (10%) percent of price bid. No cash accepted. Balance shall be due within thirty (30) days.

The Historic Preservation Review Process in New York State

In order to insure that historic preservation is carefully considered in publicly-funded or permitted undertakings*, there are laws at each level of government that require projects to be reviewed for their potential impact/effect on historic properties. At the federal level, Section 106 of the National Historic Preservation Act of 1966 (NHPA) directs the review of federally funded, licensed or permitted projects. At the state level, Section 14.09 of the New York State Parks, Recreation and Historic Preservation Law of 1980 performs a comparable function. Local environmental review for municipalities is carried out under the State Environmental Quality Review Act (SEQRA) of 1978.

regulations on line at:

<http://nysparks.state.ny.us> then select **HISTORIC PRESERVATION** then select **Environmental Review**

Project review is conducted in two stages. First, the Field Services Bureau assesses affected properties to determine whether or not they are listed or eligible for listing in the New York State or National Registers of Historic Places. If so, it is deemed "historic" and worthy of protection and the second stage of review is undertaken. The project is reviewed to evaluate its impact on the properties significant materials and character. Where adverse effects are identified, alternatives are explored to avoid, or reduce project impacts; where this is unsuccessful, mitigation measures are developed and formal agreement documents are prepared stipulating these measures.

ALL PROJECTS SUBMITTED FOR REVIEW SHOULD INCLUDE THE FOLLOWING MATERIAL(S).

Project Description

Attach a full description of the nature and extent of the work to be undertaken as part of this project. Relevant portions of the project applications or environmental statements may be submitted.

Maps Locating Project

Include a map locating the project in the community. The map must clearly show street and road names surrounding the project area as well as the location of all portions of the project. Appropriate maps include tax maps, Sanborn Insurance maps, and/or USGS quadrangle maps.

Photographs

Photographs may be black and white prints, color prints, or color laser/photo copies; standard (black and white) photocopies are NOT acceptable.

-If the project involves rehabilitation, include photographs of the building(s) involved. Label each exterior view to a site map and label all interior views.

-If the project involves new construction, include photographs of the surrounding area looking out from the project site. Include photographs of any buildings (more than 50 years old) that are located on the project property or on adjoining property.

NOTE: Projects submissions will not be accepted via facsimile or e-mail.

***Undertaking** is defined as an agency's purchase, lease or sale of a property, assistance through grants, loans or guarantees, issuing of licenses, permits or approvals, and work performed pursuant to delegation or mandate.
