SUMMARY OF EXPERIENCE

Ms. Harding completed her formal education in archaeology and exceeds the qualifications for an archaeologist as outlined in the Secretary of the Interior's Professional Guidelines. She is a Register of Professional Archaeologists (RPA) member experienced in Section-106 Compliance as it pertains to archaeological Phase I, II, and III excavations. She has been employed in the field of cultural resource management since 2009 and has experience working on both Precontact and Historic sites across the United States. Her focus is Precontact archaeology of the Northeast and the application of geographic information systems in the field of archaeology.

Ms. Harding's responsibilities at EBI include helping clients navigate the environmental review process to ensure compliance with Federal Communications Commission requirements under the National Environmental Policy Act. In her role as Archaeologist III-Archaeology Operations Manager for EBI Consulting, Ms. Harding is responsible for completing archaeological evaluations and mitigations for telecoms projects in the Mid-Atlantic and Northeastern United States to the standards of relevant State Historic Preservation Offices in the region in accordance with FCC guidelines, evaluations and mitigations for telecoms projects across the United States to the standards of relevant State Historic Preservation Offices, consulting with SHPO and THPO, and managing the archaeology team operating throughout the United States.

RELEVANT PROJECT EXPERIENCE (EXPANDED CV IS AVAILABLE UPON REQUEST)

September 2020- Present, EBI Consulting

Archaeologist III—Archaeology Operations Manager. Please see above for details.

January 2017-September 2020, EBI Consulting

Archaeologist II—Principal Investigator. In her role as Principal investigator Ms. Harding's responsibilities include helping clients navigate the Section 106 environmental review process, and was responsible for completing archaeological evaluations and mitigations for telecoms projects in the Mid-Atlantic, Northeastern, and Midwest Regions in the United States to the standards of relevant State Historic Preservation Offices, in accordance with FCC guidelines. In addition, Ms. Harding was responsible for reviewing technical archaeological reports.

October 2015-December 2016, TRC Environmental

Project Archaeologist. In her role as Project Archaeologist, Ms. Harding was responsible for directing and leading Phase I, II, and III cultural resource management surveys and excavations throughout the Northeast, Mid-Atlantic, and Midwest Regions. Additional responsibilities included proposal writing, technical report writing, permit writing, conducting background research, and THPO and SHPO consultation.

January 2014-October 2015, TRC Environmental

Archaeological Field Director. In her role as Archaeological Field Director, Ms. Harding was responsible for directing and leading Phase I cultural resource management surveys and excavations throughout the Northeast, Mid-Atlantic, and Midwest Regions. Additional responsibilities included technical report writing, permit writing, and conducting background research.

June 2013 – August 2013, Indiana University of Pennsylvania

Advanced Field School Supervisor. As a graduate student of Applied Archaeology, Ms. Harding was responsible for conducting independent research at the Johnston Precontact Archaeological Site and supervising undergraduate field excavations.

July 2011-January 2014, TRC Environmental

Archaeological Field and GIS Technician. In her role as Archaeological Field and GIS Technician, Ms. Harding was responsible for conducting Phase I and II cultural resource management surveys and excavations throughout the Northeast, Mid-Atlantic, and Midwest Regions. Additional responsibilities included GIS survey for archaeology and other environmental disciplines.

January 2010-November 2010, LSA Associates

Cultural Resource Analyst and Laboratory Technician. In her role as Cultural Resource Analyst and Laboratory Technician, Ms. Harding was responsible for excavation, artifact and soil analysis, artifact photography, curation, and reporting writing.

November 2009-December 2009, Brian F. Smith Associates

Archaeological Laboratory Technician. In her role as Archaeological Laboratory Technician, Ms. Harding was responsible excavation and artifact analysis at the superfund Hanford Construction Site in Washington State. Archaeological monitoring on an active construction site, OSHA HAZWOPER training, historic and precontact artifact analysis, laboratory processing, and curation.

July 2008 – August 2008, Morris Museum, Morristown

Curation Intern. As a Curation Intern, Ms. Harding assisted in conducting curation, cataloging, and public outreach presentations.

July 2006 – August 2006, Lenape Meadow

Volunteer. Ms. Harding volunteered as an excavator on a Paleo-Indian, Archaic, and 18th century multicomponent archaeological site located in Basking Ridge, New Jersey.

Attachment 2. Site Information – Photographs

You are required to provide photographs and maps as part of this filing. Additional site information can be provided in an optional attachment.

Photograph Requirements:

Except in cases where no Historic Properties were identified within the Areas of Potential Effects, submit photographs as described below. Photographs should be in color, marked so as to identify the project, keyed to the relevant map or text, and dated; the focal length of the lens and the height of the camera should be noted. The source of any photograph included but not taken by the Applicant or its consultant (including copies of historic images) should be identified on the photograph.

- a. Photographs taken from the collocation site should show views from the proposed location in all directions. The direction (e.g., north, south, etc.) should be indicated on each photograph, and, as a group, the photographs should present a complete (360 degree) view of the area around the communications tower or non-tower structure.
- b. Photographs of all listed and eligible properties within the Areas of Potential Effects.
- c. If any listed or eligible properties are visible from the proposed collocation site, photographs looking at the site from each historic property. The approximate distance in feet (meters) between the site and the historic property should be included. If any listed or eligible properties are within the APE, photos looking at each historic property should be included.

Include aerial photos of the APE for visual effects, if available. There are a variety of publicly available websites that provide aerial photographs.

Please see the attached photographs, taken by EBI Consulting on October 4, 2023, unless otherwise noted. A photograph location map is included within this attachment.

Attachment 4. Site Information – Additional Site Information

Additional Site Information Recommendations:

Describe any additional structures, access roads, utility lines, fences, easements, or other construction planned for the site in conjunction with the proposed wireless telecommunication facility. Use this attachment to provide additional details needed to present a full and accurate description of any construction activities that will take place to complete the installation.

The Subject Property, located near 741 Columbus Avenue, New York, New York County, NY 10025, is situated within a predominantly mixed-use commercial and multi-family residential urban neighborhood. The buildings are primarily multi-story construction from the nineteenth through the twenty-first centuries with moderate degrees of integrity along rectilinear lots. The terrain has no significant elevation changes and includes paved roads and parking lots, concrete sidewalks and curbs, traffic and utility infrastructure, street signage, recreational parks, and modest landscaping with mature trees throughout the area.

The Subject Property consists of an existing display unit structure within a portion of the Columbus Avenue right-of-way, at the intersection with W 97th Street. Improvements to the Subject Property include asphalt paved roads, concrete sidewalks, steel and concrete curbs, traffic signage, landscaped areas, utility manholes, and below ground utilities, including power, water, and sewer lines.

Boldyn Networks Infrastructure US LLC proposes to remove an existing display unit structure and install a new pole with top-mounted antennas for an overall height of 32.5 feet at the Subject Property. The pole and support equipment will be installed within an estimated 5-foot by 5-foot installation area, located on a sidewalk in the Columbus Avenue right-of-way, on the east side of the street. Power will be routed underground from an existing manhole in the intersection of Columbus Avenue with W 97th Street approximately 66 feet southwest to the proposed pole. Fiber will be routed underground from an existing manhole approximately 15 feet northeast to the proposed pole. Trenching for utilities is not anticipated to exceed 3 feet in width and 4 feet in depth. Access will be gained via the existing road right-of-way. Per the Federal Communications Commission’s (FCC) definition, the Area of Potential Effect-Direct Effects (APE-DE) at grade consists of the pole installation area, underground utility easements, and access route. Note that establishing the access route will not require new ground disturbance. The total area of ground disturbed was approximately 268 square feet.

Site Plans/Lease Exhibits provided by Boldyn Networks Infrastructure US LLC are included in Attachment 7.

Attachment 5. Area of Potential Effects

You are required to provide two attachments regarding the Determination of Effect: Areas of Potential Effect and Mitigation of Effect (if applicable).

Areas of Potential Effect Guidelines:

a. Describe the APE for direct effects and explain how this APE was determined.

The APE for direct effects is limited to the area of potential ground disturbance and any property, or any portion thereof, that will be physically altered or destroyed by the Undertaking. On November 24, 2008, the FCC further clarified that the APE-Direct Effects is limited to the proposed lease area including the access route and utility corridor. EBI Consulting completed an evaluation of the site, lease exhibits, and surrounding environment and determined that the APE for direct effects is limited to the pole installation area and underground utility easements.

b. Describe the APE for visual effects and explain how this APE was determined.

The APE for visual effects is the geographic area in which the Undertaking has the potential to introduce visual elements that diminish or alter the setting, including the landscape, where the setting is a character-defining feature of a historic property that makes it eligible for listing on the National Register.

According to the guidance in Section VI.C of the FCC's 2004 NPA, the presumed APE for visual effects for construction of new facilities under 200 feet in total overall height is the area from which the tower will be visible within a half mile from the tower site. However, per Section VI.C.5 of the FCC's 2004 NPA, "in the event that the Applicant determines, or the SHPO/THPO recommends, that an alternative APE for visual effects is necessary, the Applicant and the SHPO/THPO may mutually agree to an alternative APE." In consultation with the FCC, it has been determined that a 500-foot radius around the project site is an appropriate APE-VE for the vast majority of the CityBridge Link5G sites. Factors such as the height of the undertaking, the density of the development within the project area, and the presence of existing structures and vegetation in the public right of way were considered per the FCC's guidance in the NPA. The area surrounding the project site shares the characteristics cited by the FCC so it has been determined that 500-foot is an appropriate radius for assessing the effects of the project on historic properties, if any exist.

Mitigation of Effect Guidelines:

In the case where an Adverse Visual Effect or Adverse Direct Effect has been determined you must provide the following:

a. Copies of any correspondence and summaries of any oral communications with the SHPO/THPO and any consulting parties.

As of the date of this report, there has been no correspondence with the SHPO/THPO.

b. Describe any alternatives that have been considered that might avoid, minimize, or mitigate any adverse effects. Explain the Applicant's conclusion regarding the feasibility of each alternative.

No adverse effects are expected as a result of the proposed facility; therefore, alternatives that might avoid, minimize, or mitigate any adverse effects need not be considered.

For each property identified as a Historic Property in the online e-106 form:

Applicant's Name: Boldyn Networks Infrastructure US LLC

public burden estimates

Indicate whether the Applicant believes the proposed undertaking would have a) no effect; b) no adverse effect; or, c) an adverse effect. Explain how each such assessment was made. Provide supporting documentation where necessary.

Please see the table below for an evaluation of the proposed project's effects on identified historic properties.

NRHP/ Inventory Number	Historic Property Name	Effect Determination	Explanation of Effect Determination	EBI Photo No.
LP-1647	Upper West Side / Central Park West Historic District (NYC LPC Landmark HD)	No Effect	<p>The Subject Property is within the APE-VE, approx. 500 feet southeast of the Subject Property.</p> <p>The installation will not be visible from the resource due to intervening buildings. Therefore, the installation will have no effect on the resource.</p>	10-11

Attachment 6. Tribal and NHO Involvement

At an early stage in the planning process, the Nationwide Agreement requires the Applicant to gather information from appropriate Indian Tribes or Native Hawaiian Organizations (“NHOs”) to assist in the identification of Historic Properties of religious and cultural significance to them. Describe measures taken to identify Indian tribes and NHOs that may attach religious and cultural significance to Historic Properties that may be affected by the undertaking within the Areas of Potential Effects (“APE”) for direct and visual effects. If such Indian tribes or NHOs were identified, list them and provide a summary of contacts by either the FCC, the Applicant, or the Applicant’s representative. Provide copies of relevant documents, including correspondence. If no such Indian tribes or NHOs were identified, please explain.

EBI Consulting filed the proposed undertaking on the FCC’s Tower Construction Notification System (TCNS). The attached FCC Notification email lists the Tribes identified through the TCNS process. Follow-up correspondence, when necessary, will be completed via the methods listed on the attached email considered acceptable to each Tribe.

Subject: NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION - Email ID #8681157
Date: Friday, October 6, 2023 2:01:13 AM

Dear Applicant:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this electronic mail message is to inform you that the following authorized persons were sent the notification that you provided through TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail (letter). We note that the review period for all parties begins upon receipt of the Submission Packet pursuant to Section VII.A of the NPA and notifications that do not provide this serve as information only.

Persons who have received the notification that you provided include leaders or their designees of federally-recognized American Indian Tribes, including Alaska Native Villages (collectively "Tribal Nations"), Native Hawaiian Organizations (NHOs), and State Historic Preservation Officers (SHPOs). For your convenience in identifying the referenced Tribal Nations and NHOs and in making further contacts, the City and State of the Seat of Government for each Tribal Nation and NHO, as well as the designated contact person, is included in the listing below. We note that Tribal Nations may have Section 106 cultural interests in ancestral homelands or other locations that are far removed from their current Seat of Government. Pursuant to the Commission's rules as set forth in the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA), all Tribal Nations and NHOs listed below must be afforded a reasonable opportunity to respond to this notification, consistent with the procedures set forth below, unless the proposed construction falls within an exclusion designated by the Tribal Nation or NHO. (NPA, Section IV.F.4).

The notification that you provided was forwarded to the following Tribal Nations and NHOs. A Tribal Nation or NHO may not respond until a full Submission Packet is provided. If, upon receipt, the Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Second Report and Order released on March 30, 2018 (FCC 18-30).

1. TCNS Coordinator Tiffany Martinez - Delaware Nation - 31064 State Highway 281 (PO Box: 825) Anadarko, OK - tmartinez@delawarenation-nsn.gov - 405-247-2448 (ext: 1403) - electronic mail

Exclusions: The Delaware Nation of Oklahoma Historic Preservation Office has developed the following consultation procedures for all TCNS projects identified as undertakings by the

Federal Communications Commission. In the email subject line, please specify whether the project is for a tower, small cell, or collocation. Our response can be given faster with this information.

2. Cayuga Nation Representative Clint C Halftown - Cayuga Nation - (PO Box: 803) Seneca Falls, NY - clinta@roadrunner.com; tina.orbaker@gmail.com - 315-568-0750 - regular mail

If the applicant/tower builder receives no response from the Cayuga Nation within 30 days after notification through TCNS, the Cayuga Nation has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Cayuga Nation in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

Exclusions: The Stockbridge-Munsee Community reviews all cell tower construction projects that result in ground-disturbance in its areas of interest. Our areas of interest are Wisconsin, New York, Vermont, Massachusetts, the northwest corner of Connecticut, Pennsylvania, New Jersey and Kansas.

However, effective August 1, 2018, the Stockbridge-Munsee Community will only provide a reply to projects where, after completing its assessment, it has determined that it has concerns about the project. We are not interested in reviewing projects that do not result in ground disturbance, and will not respond to such projects.

If you are sending a ground disturbing project please include colored pictures of the site area along with colored maps and any known ground disturbance that preceded your current project.

If the applicant/tower builder receives no response from the Stockbridge-Munsee Band of Mohican Indians within 30 days after notification through TCNS, the Stockbridge-Munsee Band of Mohican Indians has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Stockbridge-Munsee Band of Mohican Indians in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

Exclusions: The Delaware Tribe of Indians areas of interest include our aboriginal territories (circa 1600), known locations of historic Delaware settlements, routes of removal and forced migration, and all lands of Delaware aboriginal title ceded by treaty to the United States. If you are receiving this notification, then your project falls within these areas of interest and we ask that you provide us with a cover letter describing the project and its location (including the project coordinates) as well as a topographic map showing the project location. If an archaeological survey has already been performed in preparation for the project, please send a copy of that as well. Additionally, we may request a biological assessment of culturally significant treaty resources which may be affected by the proposed undertaking.

We are only interested in consulting on projects that involve ground disturbance that is planned to take place in both undisturbed and previously disturbed contexts. We are not interested in consulting on collocations or projects that involve no ground disturbance. If your project does involve ground disturbance or you do not receive a response from us within 30 days of submitting the above project information, then we have no comments on the project. However, if any archaeological resources or human remains are disturbed at any point in the project planning or construction, we ask that the project be halted until we can be notified of the inadvertent discovery and can determine the most appropriate course of action. If your company would like a formal written response from the Delaware Tribe concerning the potential impact of your project to culturally and religiously significant sites, please contact Susan Bachor at sbachor@delawaretribe.org to request such a response.

In order to better facilitate consultation throughout our areas of interest we have three regional tribal historic preservation offices. While our Tribal Headquarters remains in Oklahoma, our Eastern Office in Pennsylvania is the point of contact for all consultation within our Eastern Region which includes the states of Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland and Virginia. If your project exists in any of these states, please contact Susan Bachor with the above project information at the following e-mail address. All offices prefer digital submissions and the project information can be submitted by e-mail.

We, at the Delaware Tribe Historic Preservation Office, along with our Chief and Tribal Council remain committed to protecting the cultural and physical integrity of our historic sites, traditional cultural properties, sacred sites, objects of cultural patrimony, and most importantly, the remains of our Ancestors. We look forward to working with you on our shared interests in preserving and protecting Delaware heritage within our areas of interest.

The notification that you provided was also forwarded to the following SHPOs in the State in which you propose to construct and neighboring States. The information was provided to these SHPOs as a courtesy for their information and planning. You need make no effort at this time to follow up with any SHPO that does not respond to this notification. Prior to construction, you must provide the SHPO of the State in which you propose to construct (or the Tribal Historic Preservation Officer, if the project will be located on certain Tribal lands), with a Submission Packet pursuant to Section VII.A of the NPA unless the project is excluded from SHPO review under Section III D or E of the NPA.

TCNS automatically forwards all notifications to all Tribal Nations and SHPOs that have an expressed interest in the geographic area of a proposal. However, if a proposal for PTC wayside poles falls within a designated exclusion, you need not expect any response and need not pursue any additional process with that Tribal Nation or SHPO. In addition, a particular Tribal Nation or SHPO may also set forth policies or procedures within its details box that exclude from review certain facilities (for example, a statement that it does not review collocations with no ground disturbance; or that indicates that no response within 30 days indicates no interest in participating in pre-construction review).

Please be advised that the FCC cannot guarantee that the contact(s) listed above have opened and reviewed an electronic or regular mail notification. If you learn that any of the above

contact information is no longer valid, please contact the FCC by emailing tenshelp@fcc.gov. The following information relating to the proposed tower was forwarded to the person(s) listed above:

Attachment 8. Historic Properties Visual Effects

Historic Properties Identified for Visual Effects Guidelines

- a. Provide the name and address (including U.S. Postal Service ZIP Code) of each property in the APE for visual effects that is listed in the National Register, has been formally determined eligible for listing by the Keeper of the National Register, or is identified as considered eligible for listing in the records of the SHPO/THPO, pursuant to Section VI.D.1.a. of the Nationwide Agreement.**

On September 18, 2023, EBI Consulting completed a review of the available records as required per Section VI.D.1 of the Federal Communications Commission’s 2004 Nationwide Programmatic Agreement to identify historic properties in the APE for Visual Effects. Please refer to the above list in the FCC Form.

- b. Provide the name and address (including U.S. Postal Service ZIP Code) of each Historic Property in the APE for visual effects, not listed in part “a”, identified through the comments of Indian Tribes, NHOs, local governments, or members of the public. Identify each individual or group whose comments led to the inclusion of a Historic Property in this attachment. For each such property, describe how it satisfies the criteria of eligibility (36 C.F.R. Part 63).**

As of the date of this report, EBI has not received comments from Indian Tribes, NHOs, local governments, or members of the public that identify Historic Properties in the APE for visual effects that are not listed in the above list of Historic Properties.

- c. For any properties listed in the above Historic Properties list, that the Applicant considers no longer eligible for inclusion in the National Register, explain the basis for this recommendation.**

Attachment 9. Local Government

- a. If any local government has been contacted and invited to become a consulting party pursuant to Section V.A. of the Nationwide Programmatic Agreement, list the local government agencies contacted. Provide a summary of contacts and copies of any relevant documents (e.g., correspondence or notices).**

Please see the attached correspondence with the local government. As of the date of this submission packet, EBI Consulting has not received any comments from the local government. Should a response be received, copies will be forwarded to all consulting parties as an addendum to this submission packet.

- b. If a local government agency will be contacted but has not been to date, explain why and when such contact will take place.**

Dear Gina Santucci:

Pursuant to Section 106 of the National Historic Preservation Act, the regulations promulgated thereunder and interagency agreements developed thereto, EBI Consulting, Inc., on behalf of Boldyn Networks Infrastructure US LLC, provides this notice of a proposed telecommunications facility installation at the address listed above.

EBI would like to inquire if you would be interested in commenting on this proposed project. Please refer to the attached plans for additional details.

EBI is requesting your review of the attached information as part of the Section 106 process only and not as part of the local zoning process. We are only seeking comments related to the proposed project's potential effect to historic properties.

Your comments regarding the proposed project's potential effect on historic properties should be submitted to EBI Consulting, to my attention at 21 B Street, Burlington, MA 01803 or contact me via telephone at the number listed below. Please reference the EBI project number. We would appreciate your comments as soon as possible within the next 30 days. Please do not hesitate to contact me if you have any questions or concerns about the proposed project.

To Whom It May Concern:

Your organization has requested consulting party status in the Section 106 consultation process for Link NYC 5G towers in your area of interest. On behalf of Boldyn Networks Infrastructure US LLC; we are providing initial information on a proposed facility at the above-referenced location to allow you additional time to review the proposed site if you wish. Per the Federal Communications Commission's guidance in Section V.G of their 2004 Nationwide Programmatic Agreement, as a consulting party, you are entitled to:

- (1) receive notices, copies of submission packets, correspondence and other documents provided to the SHPO/THPO in a Section 106 review; and
- (2) be provided an opportunity to have [your] views expressed and taken into account by the Applicant, the SHPO/THPO and, where appropriate, by the Commission.

EBI would like to inquire if you would be interested in commenting on this proposed project and any adverse effects you believe it will have on historic properties. Please refer to the attached maps, project plans and list of historic properties and local landmarks we have already identified during the State Historic Preservation Office records search. **Please note that this is an initial courtesy notification, the 30-day review period for Consulting Party comments does NOT commence with this correspondence. You will receive the full submission packet as prescribed by the FCC in the coming weeks.** We simply share this initial notification so that if you know of any immediate concerns, we may review those concerns and begin attempts to address them.

If you have any comments regarding the above-referenced project's potential effect on historic properties please submit those comments to EBI Consulting, to my attention via email at CityBridgeLink5g@ebiconsulting.com or via US mail at 21 B Street, Burlington, MA 01803. Please reference the EBI project number in the subject line above. Please do not hesitate to contact me if you have any questions or concerns about the proposed project.

The Historic Preservation Review Process in New York State

In order to insure that historic preservation is carefully considered in publicly-funded or permitted undertakings*, there are laws at each level of government that require projects to be reviewed for their potential impact/effect on historic properties. At the federal level, Section 106 of the National Historic Preservation Act of 1966 (NHPA) directs the review of federally funded, licensed or permitted projects. At the state level, Section 14.09 of the New York State Parks, Recreation and Historic Preservation Law of 1980 performs a comparable function. Local environmental review for municipalities is carried out under the State Environmental Quality Review Act (SEQRA) of 1978.

Project review is conducted in two stages. First, the Field Services Bureau assesses affected properties to determine whether or not they are listed or eligible for listing in the New York State or National Registers of Historic Places. If so, it is deemed "historic" and worthy of protection and the second stage of review is undertaken. The project is reviewed to evaluate its impact on the properties significant materials and character. Where adverse effects are identified, alternatives are explored to avoid, or reduce project impacts; where this is unsuccessful, mitigation measures are developed and formal agreement documents are prepared stipulating these measures.

ALL PROJECTS SUBMITTED FOR REVIEW SHOULD INCLUDE THE FOLLOWING MATERIAL(S).

Project Description

Attach a full description of the nature and extent of the work to be undertaken as part of this project. Relevant portions of the project applications or environmental statements may be submitted.

Maps Locating Project

Include a map locating the project in the community. The map must clearly show street and road names surrounding the project area as well as the location of all portions of the project. Appropriate maps include tax maps, Sanborn Insurance maps, and/or USGS quadrangle maps.

Photographs

Photographs may be black and white prints, color prints, or color laser/photo copies; standard (black and white) photocopies are NOT acceptable.

-If the project involves rehabilitation, include photographs of the building(s) involved. Label each exterior view to a site map and label all interior views.

-If the project involves new construction, include photographs of the surrounding area looking out from the project site. Include photographs of any buildings (more than 50 years old) that are located on the project property or on adjoining property.

NOTE: Projects submissions will not be accepted via facsimile or e-mail.

***Undertaking** is defined as an agency's purchase, lease or sale of a property, assistance through grants, loans or guarantees, issuing of licenses, permits or approvals, and work performed pursuant to delegation or mandate.
